eight-view D4 fusion of one YOLO (exp037)
mask NMS instead of box NMS, one view (exp060)
two YOLO architectures, fused pools (exp102)
YOLO + Mask2Former, calibrated (exp140)
second YOLO as a veto (exp021)
three checkpoints of one run, 24 views (exp101)
pixel averaging of two YOLO masks (exp030)
eight-view fusion of Mask2Former (exp144)
soft probability vote instead of hard (exp059)
weight soup, Mask2Former epochs 40 + 50 (exp143)
weight interpolation of two YOLO runs (exp061)
